PRODUCT CATALOGUE

Who we are

Founded in 2005 by Directors Hayden Froggatt and John Almond, MSS Ltd is an innovative and forward thinking company, supplying and installing cable containment systems to the electrical and mechanical sectors.

Experience, sound product knowledge and practised efficiency means MSS can provide you with the best and most cost effective solution for your needs.

MSS is accredited under the ISO 9001 for quality management systems and ISO 18001 for safety management systems.

What we do

Cable Ladder/Cable Tray/Cable Basket/Metal Framing Systems/Solid Trunking and Skirting
Duct Systems/Pipe Supports/Seismic Design and Supply/Installation/Bespoke Fabrication

Why MSS

We are specialists in:

Cable & Pipe Support System

Mechanical & Electrical Installations

Design/Engineering/Supply/Installation

Specialised Mechanical Installations

Skirting & Power Duct Interior Fitouts

Special Fabrication and Engineering

We can design, engineer, manufacture and install to your specifications providing you with quality products, on time and within budget.

General and Bespoke Fabrication

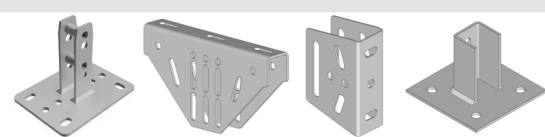

Our main focus is on light to medium steel fabrication, with an emphasis on small production runs and one-off high end bespoke works.

Our scope and skill set is broad due to a wide range of the latest technology available in-house including the latest in automated plant and equipment. We regularly update our capital equipment to ensure jobs are executed to the highest standard, on time and within budget.

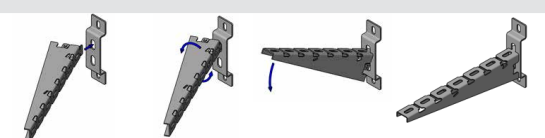

Our highly trained team of Designers, Fabricators and Welders pride themselves on delivering precision design and engineering in Aluminium, Steel and Stainless Steel.

SOLID HANGER BRACKETS

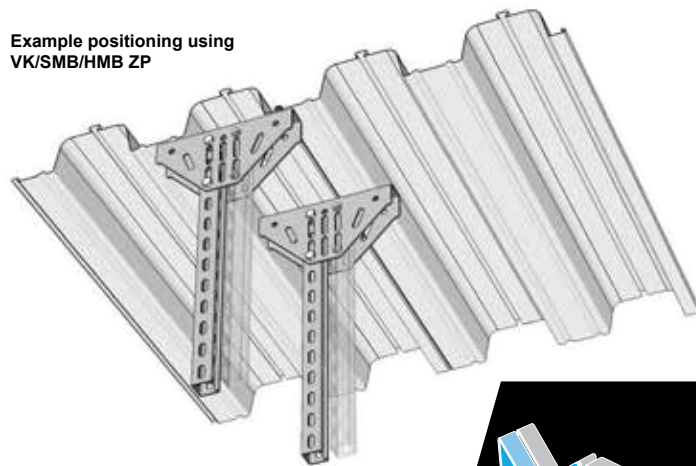

Simple and Versatile Single Drop System

Solid Hanger Bracket System Advantages:

- Use with the **CLB Clip In Bracket System** (see next section for details)
- Single Central Dropper allows for **easy installation and removal of cables**
- Hang from **angled faces**, such as purlins or sloping ceilings
- **Span gaps in the ceiling face** (such as Comflor® flooring/ceilings) with flexible hanging positions
- Can be utilised to secure **seismic bracing**

Example positioning using VK/SMB/HMB ZP

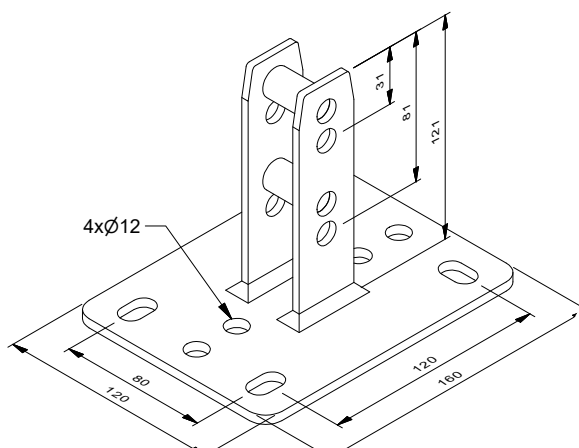

CERTIFIED QUALITY SYSTEM – ISO 9001:2015
BS OHSAS 18001 : 2007 & AS/NZS 4801:2001

**SOLID HANGER BRACKET AND CLB SYSTEM INSTALLATION BY MSS
NEW ZEALAND INTERNATIONAL CONVENTION CENTRE 2017**

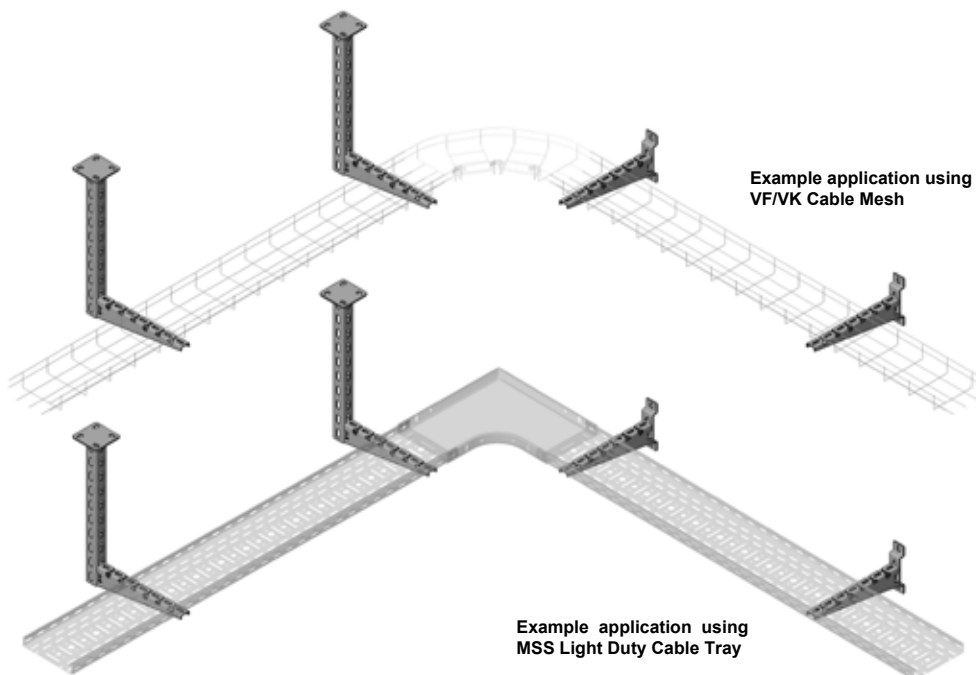

CLB CLIP IN BRACKET SYSTEM

Fast, Easy, Efficient

CLB System Advantages

- **Labour Saving** - no nuts, bolts or cutting required, simply click to lock in place
- **Side Loading** in all applications for ease of cable installation & access
- **Seismically Compliant in many applications** (ask us about our seismic design & documentation options)
- **Galvanised Finish** suited for most internal and external applications
- No need for trapeze supports of multiple tiers
- Cable Mesh simply **locks into place** without the need for fasteners
- **Compatible with MSS Light & Medium Duty Cable Tray and Cable Mesh**

CERTIFIED QUALITY SYSTEM – ISO 9001:2015
